CLASS OF 2012

OUR ACHIEVEMENTS

December 2012 | Tevet 5773

MESSAGE FROM THE COLLEGE PRINCIPAL

John Hamey
College Principal

The students of the Class of 2012 have shown themselves to be young men and women of considerable intellect, creativity, commitment, dedication and perseverance in their pursuit of excellence throughout their senior years at High School. They have demonstrated they are now ready to enter the world as caring, active and responsible members of the Jewish community and engaged Australian citizens. They emerge from Moriah with a strong sense of their Jewish identity, a commitment to yiddishkeit and a love for the State of Israel.

At their Prize Giving and Graduation ceremony earlier this year I spoke to the Class of 2012 about the work of Stanford University psychologist, Carol Dweck. In her research, Dweck explains why it is not just our abilities and talents that bring us success but whether we approach our goals in life with what she describes as a fixed or growth mindset. The view that we adopt of ourselves from an early age profoundly affects the way we live our lives and in large part determines whether we become the person we aspire to be. Believing that our qualities are carved in stone and our potential as individuals is largely pre-determined or defined by our current experiences is the fixed mindset. From this vantage point life is lived according to absolutes and ignores the extraordinary human capacity for growth, conversion and change. In contrast, the growth mindset is based on the premise that your basic qualities are things you can cultivate in life through your own effort and perseverance. Our true potential is unknown and it is impossible to foresee what can be accomplished with years of passion, toil and training.

The extraordinary successes of the students outlined in the pages that follow indicate strongly the prevalence of a

Congratulations to our teaching staff for their commitment to quality teaching, academic excellence and student wellbeing.

Our students achievements are an affirmation of your great work.

growth mindset in their approach to life. Results of this calibre are only achieved through quality teaching and the belief that you can always do better by raising the bar and pushing one's self beyond the notion of "personal best". What is most exciting, however, is that these results are but the starting point, as opposed to the end point, for the next chapter in the lives of these young men and women. From this vantage point, the possibilities for the Class of 2012 are limitless as the world begins to tap their enormous potential and they begin to pursue their passions.

Kol Hakavod to the Class of 2012! We are most proud of you and your achievements.

Matthew Rosenberg

"Persevere in what you believe in and never give up on something that you think is important" is the lesson that Matthew says he will take with him from Moriah, as he starts the next chapter of his life. An exemplary role model to other students, Matthew

has participated enthusiastically in the sporting life of the College and has contributed significantly to both Rugby and Soccer. His advice to the class of 2013 is to "utilise the close relationships with your teachers and all the resources that Moriah offers".

"Moriah provides the opportunities and resources to pursue essentially anything you develop an interest in."

– Rebecca Helfenbaum

Candice Sesel

Candice is well known for her strength of character and determination, demonstrated by her passionate contributions as Ezra House Captain and her leadership of the team who facilitated the successful 'Pink Breakfast' to raise money for Breast

Cancer Research this year. Enthusiastically involved in a wide range of College activities including Sports Carnivals, Talent Quests, Music Camps, Counterpoint Programs and Leadership initiatives, Candice has made the most of all the opportunities offered to her at Moriah. Her concern and compassion for others earned her the 2012 Prize for Significant Service to the General Community and the Jewish Community.

"The teachers at Moriah are all willing and wanting to help. Moriah is a special community which offers a supportive network."

– Sam Kaplan

Ruth Lubrainschik

Ruth's tenacity, determination and leadership skills came to the fore in Year 11, when she actively participated in the planning and implementation of the Year 12 Graduation Dinner, choreographed for Music Festival; and helped to

organise this year's Year 12 Formal. Compassionate and caring, Ruth was integrally involved in the Pink Breakfast to raise funds for Breast Cancer research.

Phoebe Port

A talented and valued member of the Moriah community, Phoebe has always taken an active role in College life. Elected to the position of Jewish Life & Zionism Captain, Phoebe has worked professionally to promote the ethos of the College both on campus and within the broader community. To quote one of her teachers, "Phoebe is a student who has immersed herself in the life of the College, reveling in every opportunity to celebrate the Jewish values which are so dear to her".

Tamar Ruiz

Tamar has embraced every opportunity to participate in the life of the school. She has successfully juggled her leadership commitments as Hillel House Captain and a rigorous academic program with a host of co-curricular activities including Prayer Leadership, sports activities and her dedicated involvement in the Moriah Music Program. Among the many awards that Tamar has received during her time at the College, she lists receiving the Prize for the student who best exemplifies the school motto, for two consecutive years, as one of her most significant achievements.

WHO WE ARE

Marc Kopelowitz

When asked about the most valuable lesson he has learned at Moriah, Marc's answer – "work hard, stay humble" – embodies his warm, empathic nature and his strong, determined work ethic. Marc's distinguished list of achievements includes

being Charity Captain on the Leadership Body, strong participation in Sport and the Duke of Edinburgh Award and being awarded both the Prize for School Service and the Prize for Sporting Excellence throughout the Secondary School in 2012. Marc's advice to the Class of 2013 is "give everything you do 110% and try to enjoy the year as much as possible".

"Moriah is special because it gives students the opportunity to reach their full potential especially if you make the most of every opportunity and participate in everything you can."

– Ariela Weiner

Nicole Flax

Nicole's advice to the Class of 2013 is that "working just a bit harder will pay off in the end", and this is definitely coming from someone who has put that into practice! Nicole's diligence and self-motivation have ensured that she has gained outstanding results in all her subjects with a long list of Academic awards and prizes to her name. In addition, Nicole has found time to be involved in numerous volunteer programs in the College including coordinating the successful Lighthouse Program in which senior students volunteer their time to work with Primary School students with learning difficulties.

Shylee Dagani

Shylee arrived from Israel to join Moriah in Year 9 and quickly overcame the challenges associated with moving to a new country including the language barriers and the culture shock! Her native tongue gave her the opportunity to accelerate in Hebrew and complete her HSC studies in this subject while in Year 11. It's no surprise that Shani is described by her teachers as a vivacious go-getter who embraces life and all its challenges.
