

eLearning Leader

Moriah College Primary School has a well-established practice of enabling students to acquire digital skills and use technology from a young age. Future-focused and visionary, the school is now prioritising investment in the establishment of a premiere technology program for students, which will set Moriah apart as the leading exemplar in Australia for teaching coding and technology, with applications across Key Learning Areas and to solve real world problems. The search is on for an ambitious, experienced, highly innovative, leading educator in coding, digital technology, design and computational thinking who will partner with the College to enact this vision and ensure our students exceed expectations of being future ready with this key global competency. The eLearning Leader is a Primary School Executive position reporting to the Head of Primary School and will inspire a team of educators towards transformational practice, which leverages digital competencies in students.

The successful applicant will have:

- A proven ability to design a future-focused eLearning program; to deliver core and extended digital skills and design thinking.
- The knowledge and skills to design enrichment and stretch opportunities for students of all capabilities to expand their coding and digital competency.
- Experience in designing, planning and delivering high quality innovative professional learning for educators to support their use of applications and tools across multiple learning platforms.
- A deep understanding and ability to create a Blended Learning environment.
- A proven ability to design and implement creative and effective, evidence-based practices, which incorporate coding and digital technologies to improve student learning and engagement.
- Experience with augmenting student learning experience with a range of technologies.
- Proven ability to promote the effective use of an LMS.
- Experience with delivering and implementing cyber ethics and eSafety programs.
- Experience with Inquiry and Deep Learning pedagogy and practices with specific reference to leveraging digital skill development and application.
- Extensive experience with a comprehensive range of coding and technology platforms, resources, tools and apps to inform an audit of technology and selection of the optional suite to progress student skills from K-6 at the College.
- Extensive knowledge and experience of the ACARA Digital Technologies Curriculum.
- Demonstrated leadership experience across professional teams.

All appointments will be based on merit selection without reference to the religion of applicants. An empathy with our ethos of a Modern Orthodox Jewish Day School is essential. Any offer of employment will be subject to background checks and child protection screening.
